VWCARCASS CARCASS WEIGHING SCALE

IDEAL FOR BUTCHERS AND
MEAT PROCESSING FACILITIES

KEY FEATURES

- IP69K rated for hygienic high pressure washdown
- 304 stainless steel weighing scale (316 optional)
- 316 stainless steel meat handling equipment for high hygiene in food production facilities
- UK Made to the highest quality standards
- Durable 316 stainless A-Frame, hooks & eyes. Mounted at ideal height for ease of use and reduced manual handling

The VWCARCASS Carcass Weighing Scale is designed and manufactured in the UK to the highest quality standards. Ideal for butchers and other meat processing facilities, the Carcass Weighing Scale incorporates the VWS Platform Scale (constructed from 304 grade stainless steel with IP69 fully washdown loadcells) and a 316 grade stainless steel A-Frame complete with 2 carcass hanging hooks and hook eye. The meat handling equipment (A-Frame, hooks and eye) are 316 rated for food production and are mounted at the ideal height to ensure ease of use, durability and hygiene.
