VW

MILD STEEL PLATFORM SCALE

**TRUSTED BY WEIGHING
PROFESSIONALS FOR OVER 25 YEARS**

The UK made VW mild steel platform scale has been firmly established at the forefront of UK industrial weighing for over 25 years. The platform's proven design and impressive build quality, along with its OIML approved IP67 waterproof stainless steel loadcells, guarantee long lasting, accurate and reliable weighing performance - all backed by a full 2 year warranty. The VW range is designed and built to order in the UK and as such can be customised to satisfy almost any requirement including custom dimensions, capacity, colour, smooth top plate, ramps or in-ground/dormant applications with pit frames and removable top plates. All models feature stainless height adjustable feet, a sealed stainless junction box and a tough and highly durable powder-coated finish.

QUALITY UK MANUFACTURING FULLY CUSTOMISABLE

- 2 year manufacturer's warranty
- UK made to the highest quality standards
- Tough powder-coated mild steel construction
- IP67 stainless steel OIML approved loadcells
- Free standing, pit mounted or with up to 4 ramps
- Fully customisable - size, colour, capacity...
- Heavy Duty/Extra Heavy Duty versions available
- Various standard sizes and capacities
- Custom sizes and capacities available

CLASS III VERIFIED

Our ISO 9001:2015 registration includes our quality system approval for Self Verification, allowing us to test and certify scales for trade use here at our factory. All VW platforms use OIML approved loadcells and are designed for Class III approval.

CUSTOMER SUPPORT

We provide the highest level of before and after sales and service support. Our technical staff are highly experienced and knowledgeable in all aspects of the weighing industry and are ready to provide support and advice on any of our products.

QUALITY

Our ISO 9001:2015 registration ensures that all of our platforms are manufactured to strict quality standards and are fully QA tested and calibrated by our highly trained engineers.

EXPERIENCE

The quality and reliability of the VW range of industrial weighing scales is the result of over 25 years of design and manufacturing experience.

RELIABILITY

The VW range is built to last. We use quality components and will not compromise on material and build quality. All of our loadcells are OIML approved and all platforms can be Class III verified as required.

MODEL	DIMENSIONS*
VW600	600mm x 600mm
VW800	800mm x 800mm
VW1010	1000mm x 1000mm
VW1210	1250mm x 1000mm
VW1212	1250mm x 1250mm
VW1512	1500mm x 1250mm
VW1515	1500mm x 1500mm

*Other custom dimensions available on request

SPECIFICATIONS

CAPACITY OPTIONS	150kg, 300kg, 600kg, 1000kg, 1500kg, 2000kg, 3000kg (Higher capacity options available on request)
PLATFORM HEIGHT	Approx. 80mm to Weighing Area
CONSTRUCTION	Mild steel with durbar/checker top plate (Smooth plate optional) 100 x 50 x 5 PFC frame laid flat with 4.5mm durbar top plate
FINISH	Professional tough powder-coated blue finish (Other colours available)
LOADCELLS	4 off Flintec OIML approved IP67 rated stainless steel loadcells
CABLE	5m of high quality cable with steel armoured braiding
FEET	Height adjustable stainless steel rubber based mounting feet
JUNCTION BOX	Stainless steel sealed junction box and summing board

OPTIONS

- Custom Dimensions
- High Capacities (Models VWHD and VWEHD)
- Smooth top plate
- Custom colours
- ATEX loadcells and junction box
- Galvanized, Hot Zinc Spray, Aluminum
- Blue food grade stainless steel mounting feet
- OIML Class III approval for trade use
- Calibration Certificate to National Standards
- Pit/Locating Frame for Dormant/In-Ground
- Removable Top Plate
- Ramps for easy access
- Lifting Handles
- Forklift Guides for portability (Model VWFG)
