APPROVAL WITH CE-M SERIES PLATFORM

- The weight of the **single platform** is legal for trade.
- The **total weight of the vehicle** is legal for trade depending on the application:
 - The wheel weighing systems, with a number of platforms equal to the number of vehicle's wheels, are approved, because the weight of the vehicle is determined in only one weigh.
 - The axle weighing systems are for internal use only.
- The CE-M division in which the **total weight of the vehicle** is indicated in the wheels weighing systems (4 platforms) is equal to the sum of the single platforms' divisions, rounded.
Example: with 4 approved platforms with division 200g, the approved sum weight will be indicated with division 1kg.
