Turier Scales have been established since 1891 and are the largest independant distributor in the UK of medical, laboratory and industrial weighing equipment.

SHEKEL HEALTHWEIGH®

Established in 1975, Shekel Scales has more than 35 years’ experience in the design, development and manufacture of electronic scales, force measurement applications and weighing systems.

Shekel Scales offers a wide range of healthcare and fitness scales. The Healthweigh® collection has a unique innovative design, developed and manufactured to high professional standards.

At Shekel, we make sure we're always up-to-date: All of our products are EMR ready, enabling connection to hospital databases.

Healthweigh® is the scale of choice for use in hospitals, clinics and fitness centers.

Physician Scale

H151-00-5 (Class III);

Lightweight and slender, the Healthweigh® Physician Scale is a professional tool providing precision weighing information. The design patented scale is multifunctional: height and weight are indicated in a single task operation for BMI calculation. The adjustable height rod is suitable for children and adults.

**Features**

- Movement compensation technology
- BMI function
- Zero/Hold/Print
- 5 digit ¾” LCD/Positive FSTN
- Automatic Reweigh
- Updatable firmware
- Ports: RS232 and USB
- Optional: Bluetooth

Handrail Scale
H251-00-2 (Class III)

Healthweigh® Electronic Handrail Scales were designed for the bariatric practice. Its unique design and enhanced robust structure assures safety and comfort for large people. The side rails gives support to unsteady patients and movement compensation technology eliminates involuntary movement. Assembly is effortless; a pop-up patented hinge-joint sets the back rail upright in seconds and the side rails slot-in. Two heavy-duty wheels make it easy to easily move the scale.

Features
- Movement compensation technology
- BMI function
- Tare/Zero/Hold/Print
- Scroll Down/Up

Multifunction Handrail Scale
H251-00-4 (Class III)

The new Multifunction Handrail Scale has an original design. The stable, integrated seat provides the patient with a safe and comfortable weighing process. The seat can be easily lifted, thereby enabling the patient to be weighed while standing as well, supported by the robust handrail.

Equipped with an extremely robust handrail, and high capacity, Shekel's Multifunction Handrail Scale is essential for any hospital or clinic that treats heavier patients.

Features
- Movement compensation technology
- BMI function
- Tare/Zero/Hold/Print
- Scroll Down/Up

www.healthweigh.co.uk
Chair Scale
H551-00-1 (Class III)

The new Chair Scale with its patented design maintains Shekel’s well-known reputation for reliability and uncompromising precision. With a few smart changes, Shekel has created the ideal ergonomic patient product. All of a patient’s care needs, including safety, comfort, caregiver’s use and maintenance, are met. The compact package design ensures the most cost efficient shipping method.

Features
• Movement compensation technology
• BMI function
• Tare/Zero/Hold/Print
• Scroll Down/Up
• 5 digit ¾” LCD/Positive FSTN
• Automatic Reweigh
• Updatable firmware
• Ports: RS232 and USB
• Optional: Bluetooth

Ergonomic patient-oriented design:
The armrests can be lifted separately, allowing the patient to slide from his chair to the chair scale while leaning on the prone armrest. The footrest can be folded as well for easier access.

Power

Bed Weigher

RRP £1495

WPT/4B 500C

www.healthweigh.co.uk
The beams are designed to weigh patients in lying position. The distance between beams is adjustable up to 2.5 meters so it’s appropriate for different types of bed.

The indicator is equipped with backlit LCD, powered either by mains adaptor or batteries.

Light construction (single beam mass 8kg) for ease of transport.

Easy access onto the beams (beam height approx. 18mm)

Capacity: 300kg
Graduation: 0.1kg
Tare range: -300kg
Com port: Rs232
Weight gain is an essential sign of good health in newborns. **Shekel** Scales are ergonomically designed for the newborn and growing baby.

**Shekel** advanced technology is so precise that our scales are integrated into warmers and incubators used to sustain premature babies.

Unique movement compensation technology provides 100% accuracy, even when baby moves during weighing.

We have over 30 years’ experience in manufacturing neonatal scales.

**Shekel** – quality and precision for your baby.

www.healthweigh.co.uk
Neonatal Scales
H651-00-XX (Class III)

Healthweigh® newly designed Neonatal Scales feature advanced technology for precision weighing of newborn and growing babies. Removable upper tray allows for weighing in a standing position. Optional digital measuring rod for accurate calculation of baby’s length.
